DUAL

Visibilità e flessibilità progettuale: bassa temperatura, freddo ventilato e pralineria, doppio impianto freddo ventilato/caldo secco, caldo secco

Visibility and design flexibility:
cold ventilated and for chocolates,
double system cold ventilated/dry hot,
dry hot, low temperature

NEA

L'eleganza e la funzionalità della pasticceria canalizzabile: freddo ventilato e pralineria, doppio impianto freddo ventilato/caldo secco, caldo secco, neutro

The elegance and functionality of ductable pastry:
cold ventilated and for chocolates, double system cold
ventilated/dry hot , dry hot, neutral

Costruire una Drop-in, richiede molto più che tecnologie all'avanguardia e idee innovative. È il risultato di una filosofia tuttora valida e che perseguiamo con coerenza: prestazione e risparmio energetico. Da decenni lavoriamo per equipaggiare sempre meglio i modelli, per garantire la massima durata ed affidabilità.

The construction of a Drop-in, requires much more than cutting-edge technologies and innovative ideas. It's a result of a strong philosophy that we consistently pursue: performance and energy saving. For decades, we've been working to improve our models, to guarantee a long-lasting efficiency and reliability.
